LESSONS LEARNED FROM THE IMPLEMENTATION OF LAST NRIS

Cross-sectional theme

problem of ownership and liabilities (from national to local level)

low informative value of fulfillment of selected measures =

a) diversity of data systems (not interconnected)

b) various categories - targeting of public policies/measures (unethical data)

- not sufficient assessment of progress on non-discrimination
- weak involvement of Roma organizations caused by absence of targeted investments in the development and capacity building of human resources

MAIN CHALLENGES FOR NEW STRATEGY FOR EQUALITY, INCLUSION AND PARTICIPATION FOR ROMA UNTIL 2030

- plan to identify contact points at the level of individual ministries
- sophisticated evaluation and monitoring methodology (extended to impact assessment, strengthening of expert consultation structures)
- strengthening the analytical capacity of the Office (interconnection of data systems, analysis for the implementation of implemented measures)
- the theme of combating anti-Roma racism is part of a new strategy
